TO: All Command Business Partners:
RE: Continuity of Business Operations

Command Tooling Systems is actively supporting the efforts of the nation to slow the spread of COVID-19. Yesterday the Governor of Minnesota issued an executive order to close non-essential businesses that are not essential to critical infrastructure as defined in the Department of Homeland Security's memo dated March 19, 2020.

Because Command supports several companies who manufacture critical and essential components that are critical to supporting the countries critical supply chain, we plan to continue to operate our business at full capacity. We will do our best to provide you with the same exceptional service you have come to expect from us.

We are additionally doing everything in our power to keep our employees healthy. We are taking many precautions including increased sanitation, limiting visitors, and maintaining social distancing.

Please do not hesitate to reach out to us if there is anything we can assist you with during these unprecedented times. We value our relationship with you and wish you all good health and safety.

Best Regards,
