

Crescent Cove

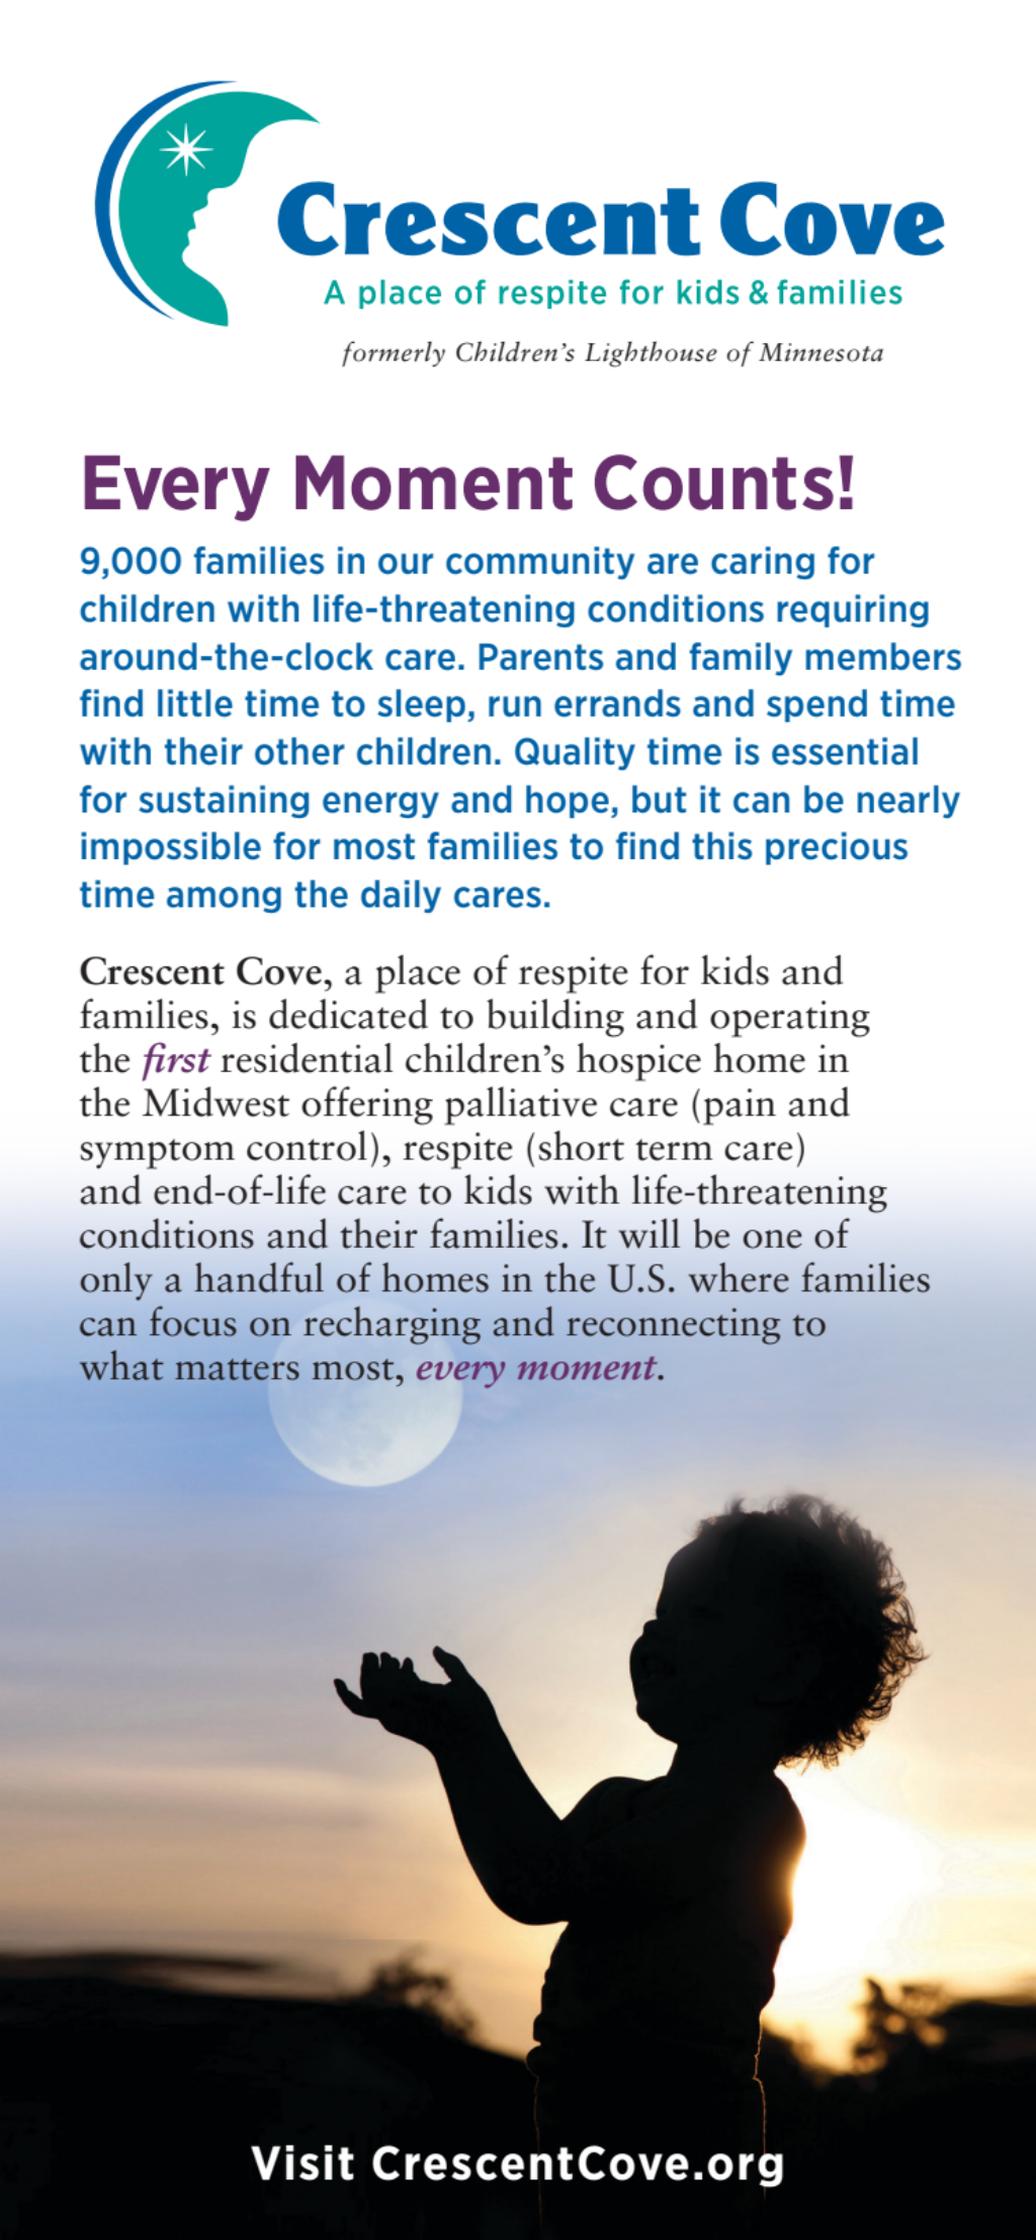

A place of respite for kids & families

formerly Children's Lighthouse of Minnesota

Every Moment Counts!

9,000 families in our community are caring for children with life-threatening conditions requiring around-the-clock care. Parents and family members find little time to sleep, run errands and spend time with their other children. Quality time is essential for sustaining energy and hope, but it can be nearly impossible for most families to find this precious time among the daily cares.

Crescent Cove, a place of respite for kids and families, is dedicated to building and operating the *first* residential children's hospice home in the Midwest offering palliative care (pain and symptom control), respite (short term care) and end-of-life care to kids with life-threatening conditions and their families. It will be one of only a handful of homes in the U.S. where families can focus on recharging and reconnecting to what matters most, *every moment*.

We Need Your Help!

Give Creatively!

Crescent Cove is 100% supported by contributions of all kinds. There are many ways you can become a beacon of light and hope:

- Make a *donation* or memorial contribution.
- Become a *volunteer or join an advisory council*.
- *Give* in celebration of a birthday, anniversary or wedding.
- *Fundraise* or ask your company to host an event.
- Remember us in your *estate planning*.

Inspire Others!

Spread the word about the need to create a special oasis of care, understanding and respite for families who need quality time with their ill child, no matter how much time that might be. *Share the dream* to create a place where children can engage in activities that promote their best quality of life, while their families find time to rejuvenate their spirits and receive encouragement.

Make a Difference!

A child's time may be limited, but their lives needn't be. At no cost to families, Crescent Cove will offer medical care in collaboration with the child's established medical team, in addition to practical and emotional support to families. Please make this *your moment* to support the dream of building this special place of hope, comfort and peace.

Crescent Cove, formerly Children's Lighthouse of Minnesota, is recognized by the IRS as a 501(c)(3) public charity. 100% of donations are used for the development of the infrastructure, programs and services.
